Big policy solutions and budget decisions that help people who need help the most; short and long-term progress on environmental and climate protection policies (and enforcement); Making sure California is a vocal and effective back-stop to the Trump Administration; Prop. 13 reform; Reduction in tuition at public universities and colleges; more funds for rehabilitation programs in our state prisons and more.

---

**Q21** Why do you feel you can win this race?

Strong base of support in Oakland and within the Environmental community. We will have sufficient funds to send mail and enough volunteers to run a good grass-roots field operation. Strong endorsements, which I have, also help. People are seeing and hearing that I have the most relevant experience in the race and many voters are gravitating to that.
